Chipset:	JL
Distance:	10 m

### • Earphones:

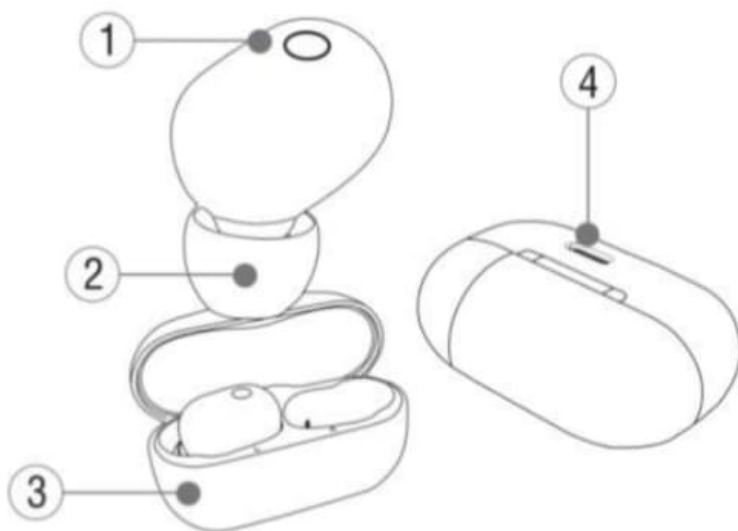

Playtime:	2~4 Hours
Battery Capacity:	2x30 mAh
Sensitivity:	85 dB

Driver: 10 mm  
Impedance: 32  $\Omega$   
Frequency Response: 20 Hz ~ 20 kHz

• **Charging Case:**

Charge Input: 5 V DC, 1 A  
Battery: 220 mAh  
Number of Recharges: 3 ~ 4  
Charging Time: 1 Hour

## Parts Identification

- 1.Touch pad
- 2.Silicon eartip

3.Charging case

4.Type-C charging port

## **INSTRUCTIONS FOR USE**

### **CHARGING THE CHARGING CASE**

- Please ensure that the battery is fully charged before using the device for the first time.
- Connect the provided USB charge cable to the DC 5V charging slot on the charging case;connect the other end of the USB to a wall charger or an available USB port on a compatible device.
- The red LED indicator light will pulse to indicate that charging has begun

**Note:** Once fully charged,the red LED will stay on.

### **CHARGING THE EARBUDS**

- Please ensure that the battery is fully charged before using the device for the first time.
- Place the earbuds into the charging case and the earbuds will charge automatically. A red LED light inside the earbuds will turn on when charging has begun. The red LED indicator light will turn off when the charging is complete.After full charge,the earbuds enter into sleep mode.

**Note:**

- Charge time is approximately one (1) hour. The earbuds cannot be used while charging.
- The earbuds will turn off when inserted into the charging case, even if they are powered on before charging.

- When there is only less than 20% of power left in the earbuds, an LED Indicator Light will start to flash, alerting you to charge in time.

## SWITCHING THE EARBUDS ON and OFF

- The earbuds switch on automatically when removed from the charging case.
- To switch on the device manually, press and hold the Touch Control for about 3 seconds until the blue and red LED Indicator lights on the earbuds turn on and start flashing.
- To switch off the device, press and hold the Touch Control Button for about 3 seconds until the LED indicator lights turn off, you will then hear a voice prompt stating that the earbuds have been powered off.

**Note:** When the earphones are switched on manually, they would need to be switched on individually.

If the earbuds have been disconnected for over 3 minutes, they will turn off automatically.

## PAIRING WITH EACH OTHER

- Turn on both earbuds at the same time by removing them from the charging case or switching them on manually. After powering on the earbuds, wait a couple of seconds and you will hear the earbuds pair to each other.
- Should your earbuds not pair automatically, you can put them into pairing mode by double-clicking the Touch Control Button on one of the earbuds after powering them on, then wait for them to connect.

- The LED indicator on both earbuds will flash red and blue while connecting to each other.
- When the earbuds are connected to each other the LED Light on one earbud switches off and flashes on the other earbud indicating that the earbuds are in Bluetooth® pairing mode.

**Note:** To use the earbuds individually, remove one earbud from the charging case at a time, and connect to a Bluetooth® Device.

## PAIRING WITH BLUETOOTH DEVICES

- The earbuds must be paired to a Bluetooth device before they can be used. It is only necessary to pair the earbuds once with each device.
  - Please switch on your earbuds before attempting to pair them to a Bluetooth device.
  - When switched on, the earbuds will automatically enter Bluetooth Mode.
1. Open the Bluetooth Menu on the device you wish to pair (see "Locating the Bluetooth Menu" for more details). Some devices require you to select "Search for Devices" or "Add New Device" in order to create a Bluetooth pairing.
  2. Wait till you see "iGear Atom" on your device screen.
  3. Select "iGear Atom" on your device and follow any further prompts to pair. Once pairing is complete and a connection is established, the earbuds will emit a tone indicating that the earbuds are successfully connected.

## SAFETY PRECAUTIONS

- Please disconnect the earbuds from the phone before powering them On.
- Long press Touch Control until the blue light flashes 3 times; then wait a few seconds. The earbuds will pair automatically.

## CONTROLS
